CITY COMMISSION IN WEEKLY MEET

PAVING, SIDEWALK AND OTHER MATTERS DISCUSSED BY OFFICIALS.

The regular weekly meeting of the city commission was held yesterday afternoon, with Mayor Bessie C. W. Wooten presiding.

Manager Treadwell read a number of communications, none of which he solved by important business. One was the report of City Health Officer Wooten, which the commission recorded as very favorable. According to the report there were not even deaths in Amarillo last month and thirty-five births. The health of five residents but few cases of illness from contagious diseases. All said those were well in hand.

Two representatives of the National Paving company were present for the purpose of talking over paving matters with the commission, but they were induced to wait until the full membership was present. Mayor Wooten assured them, however, that they would be given a chance to converse with other paving firms in building on the hour job. However he stated, it is likely that no action will be taken by the commission until after the first of the year.

After passing an ordinance containing specifications for the construction of sidewalks, the commission adjourned to next week.
